Street pole banners are a great way to catch the attention of thousands of people per day. Whether you are advertising a new business or simply promoting your products or services, our street pole systems can meet all your needs. The community organizations also take advantage of this medium to identify historical districts or promote community pride and unity. We offer complete packages including printing or we can just supply the hardware only. The banner can be vinyl, mesh, or fabric. Our flags are 100% polyester and full color dye sublimated. Single-sided printing is visible on both sides but the reverse side is a mirror image. Double-sided printing utilizes 2 banners sewn back-to-back with opaque liner sewn in-between to prevent show-through.
