Wall-mount banner brackets with either vinyl or fabric banners are a great addition to any business. Whether you are introducing a new product or offering a special promotion, banners mounted on wall-mount banner brackets provide a very cost effective solution for flexible signage. The ball ends and simple lines of the brackets have a contemporary feel, and the system is made from durable welded steel, finished with a black powder coating for weather resistance. We offer complete packages including printing or we can just supply the hardware only. Our flags are 100% polyester and full color dye sublimated. Single-sided printing is visible on both sides but the reverse side is a mirror image. Double-sided printing utilizes 2 banners sewn back-to-back with opaque liner sewn in-between to prevent show-through.
