The aluminum base stylish tabletop sign holders are a cost-effective option to display your advertising. Tabletop sign holders impart a prestige up-market look to your contemporary and are highly practical as well. The look is classy and modern; ideal for reception desks, wine bars, restaurant tables, coffee shop receptions, and many other situations. They are ideal for holding custom-made panels or rigid boards that are 4mm-5mm thick to display your signs. They can be used singly or in pairs to support wider signs. Four standard sizes are available: 8.25", 11", 24" & 36". Silver color and powder-coated black color are available. Recommended for indoor use only.
