- Standard height: 89"
- 12V LED
- Interlocking aluminum poles
- Seamless pillow-case style fabric
- Heat-transferred dye sublimation printing
- Single sided or double sided print options
- 1-year manufacturer warranty on LED

The new generation portable LED light box system uses 12V but super bright LED to make graphics vivid and shiny. The light diffuses homogeneously and creates an eye-catching visual effect. Anodized snap tube aluminum frame system with *pillow case* fabric graphic. The result of stretched fabric is undeniably striking with no joints. Prints can be either single sided or double sided. The display is viewable from both the front and rear sides. It comes with a wheeled carrying bag. We also offer complete packages including printing and finishing or we can just supply hardware only. Indoor use only. Depending on the size, it only requires 1 or 2 persons to set up. Recommended for indoor use only. 1-year manufacturer warranty on LED and 5-year manufacturer warranty on the frame.
