- Available size: 2ft, 3ft, 4ft, 5ft & 6ft
- 1-year manufacturer warranty

The snap poster rails are designed for printed posters and lightweight banner material and are one of the simplest methods for displaying lightweight posters. The poster rails are supplied as a set consisting of one top rail, one bottom rail, and plastic hanging hooks. The poster rail uses the top rail to securely hold the lightweight poster and suspend it from the wall or ceiling, with the bottom rail keeping the poster taut and readable. Perfect for groceries, department stores, and retail stores. The poster rails have adjustable hooks along the top rail for installation. We offer different sizes: 2ft, 3ft, 4ft, 5ft & 6ft. We can also custom cut up to 6ft. Recommended for indoor use only.
